Hello , why are you guys not preventing Naked shorting? I have witnessed naked shorting at my investment Inovio Pharmaceuticals. I spend all my live savings in this company, because they have a covid vaccine in works. But it was shorted from 32 \$ all the way down to 6\$. The stock is under massiv short attack , despite the company working on breaktrough medicine. Why is your agency there , when not working against fraud ? Please send me a response. Thanks Reed
