## **THE PURPOSE OF THE EXAM**

The Series 26 exam is designed to assess the competency of entry-level Investment Company and Variable Contracts Products Principals. It is intended to safeguard the investing public by helping to ensure that Investment Company and Variable Contracts Products Principals are competent to perform their jobs. Function 2	Supervises Associated Persons and Oversees Sales Practices	49
Function 3	Oversees Compliance and Business Processes of the Broker-Dealer and its Offices	45

## DEVELOPMENT AND MAINTENANCE OF THE CONTENT OUTLINE AND EXAM

The Series 26 content outline was developed based on the results of a job analysis study of Investment Company and Variable Contracts Products Principals. The job analysis process included collecting data about the job functions, tasks and required knowledge of Investment Company and Variable Contracts Products Principals from a wide variety of firms using numerous data collection techniques.

To ensure and sustain the job relevance of the exam, under the guidance of FINRA staff, a committee of industry representatives (Committee) writes, reviews and validates all test items. Exam items are subjected to multiple reviews prior to inclusion on the exam, and each item is linked directly to a component of the content outline. Test items vary in difficulty and complexity. Each item will have only one correct or best answer.

The bank of exam items changes constantly as a result of amendments to, or the introduction of, government and SRO rules and regulations, changes in industry practice and the introduction of new products. It is the candidate's responsibility to keep abreast of such changes when preparing to take the exam. Exam items and their statistical performance are analyzed routinely by FINRA staff and the Committee to ensure that test items continue to be relevant to the functions of Investment Company and Variable Contracts Products Principals. Exam items are updated when necessary to reflect current industry practices and government and SRO rules and regulations. **Candidates are responsible for keeping abreast of changes made to the applicable rules and regulations as the exam is updated when new rules are introduced and when the rules are amended.**

## **ADMINISTRATION OF THE EXAM**

The exam is administered via computer. A tutorial on how to take the exam via computer is provided prior to taking the exam. Each candidate's exam includes 10 additional, unidentified pretest items that do not contribute toward the candidate's score. The 10 items are randomly distributed throughout the exam. Therefore, each candidate's exam consists of a total of 120 items (110 scored and 10 unscored). There is no penalty for guessing. Therefore, candidates should attempt to answer all items. Candidates will be allowed 2 hours and 45 minutes to complete the exam.

White boards/dry erase markers and basic electronic calculators will be provided to candidates by the test administrator, and must be returned to the test center administrator at the end of the testing session. Some test items involve calculations. Only calculators provided by the test center administrators are allowed for use during the exam.

Candidates are not permitted to bring any reference material to their testing session. Severe penalties are imposed on candidates who cheat or attempt to cheat on FINRA-administered exams.

## **HOW THE EXAM IS SCORED**

The passing score for the exam is the minimum number of test items that a candidate has to answer correctly in order to pass the exam. FINRA staff, in consultation with the Committee, using a standard setting procedure, establishes the passing score for the exam. The passing score is an absolute standard and is independent of the performance of candidates taking the exam. The passing score is 70%.

## SAMPLE ITEMS

The following sample items are included to provide an introduction to the basic formats of multiple-choice items used on the exam. The sample items do not reflect the difficulty level of actual test items.

Candidates who familiarize themselves with these formats may be able to improve their test-taking skills so their performance on the exam will better reflect their knowledge of the areas tested. The correct answer to each sample item is indicated by an asterisk.

**Closed-Stem:** The stem (the part that poses the question) is a complete sentence and thus concludes with a question mark. The options (answer choices) may be complete or incomplete sentences.

**Example:** An investor in an IRA may avoid early withdrawal penalties for which of the following?

- (A) Qualified private high school
- (B) Purchase of a vacation home
- (C) Disability\*
- (D) Change in employment status

**Open-Stem (Sentence Completion):** The stem is an incomplete statement, and the options represent conclusions to the sentence.

**Example:** Under SEC record keeping rules, trial balances must be prepared by a broker-dealer at least:

- (A) daily.
- (B) monthly.\*
- (C) quarterly.
- (D) semiannually.

**Except or Not:** The "EXCEPT" case is used when the task is to select the response option that is an exception to the principle or rule stated in the stem. If it is clearly more straightforward or less awkward to use "not," rather than "except," this is done. In either case, the stem may be open or closed.

**Example:** The Investment Company Act of 1940 requires prospectus disclosure of each of the following **except** the:

- (A) fund's past investment performance.
- (B) waiver of sales charges applicable to qualified purchasers.
- (C) fees charged to the fund by the investment advisers.
- (D) investment experience of the officers and directors of the fund.\*
